

AMENDMENTS TO THE CLAIMS

The listing of claims below replaces all previous lists.

1. (Currently Amended) A personal cleansing article comprising a package containing a striped personal cleansing composition comprising:

(a) a first stripe comprising a cleansing phase comprising a surfactant, an electrolyte comprising an anion selected from the group consisting of phosphate, chloride, sulfate, citrate and mixtures thereof and a cation selected from the group consisting of sodium, ammonium, potassium, magnesium and mixtures thereof, a density modifier comprising a low density microsphere and water, wherein the electrolyte is present from about 0.1% to about 15% by weight of the first stripe; and

(b) at least one additional stripe comprising a benefit phase that is substantially free of surfactant and substantially anhydrous and comprising at least about 20%, by weight of said benefit phase, of a hydrophobic skin benefit agent having a Vaughan Solubility Parameter of from about 5 to about 15 (cal/cm³)^{0.5}; and

~~(c) a density modifier comprising a low density microsphere;~~

~~wherein the benefit phase is substantially anhydrous;~~

~~wherein the first stripe and the at least one additional stripe~~cleansing phase and the benefit phase have substantially the same density;

~~wherein said striped personal care composition is in a form selected from the group consisting of liquid, semi-liquid, cream, lotion, gel, and mixtures thereof; and wherein said cleansing phase and said benefit phase are in physical contact within said package.~~

2. - 3. (Cancelled)

4. (Previously Presented) A personal cleansing article according to claim 1, wherein said low density microsphere comprises a particle having a density lower than 0.7 g/cm³.

5. (Previously Presented) A personal cleansing article according to claim 1 wherein said low density microsphere is comprised of a material selected from the group consisting of inorganic material, organic material and mixtures thereof.

6. - 7. (Cancelled)

8. (Currently Amended) A personal cleansing ~~composition~~article according to claim 1, wherein the benefit phase has a Consistency value of from about 1 poise to about 10,000 poise.

9. (Currently Amended) A personal cleansing ~~composition~~article according to claim 1, wherein the benefit phase has a Shear Index of from about 0.1 to about 0.8.

10. (Previously Presented) A personal cleansing article according to claim 1, wherein the hydrophobic benefit agent represents at least about 50% by weight of the benefit phase.

11. (Previously Presented) A personal cleansing article according to claim 1, wherein said hydrophobic skin benefit agent is selected from the group consisting of petrolatum, mineral oil, micro-crystalline waxes, paraffins, ozokerite, polyethylene, polybutene, polydecene, perhydrosqualene, dimethicones, cyclomethicones, alkyl siloxanes, polymethylsiloxanes, methylphenylpolysiloxanes, lanolin, lanolin oil, lanolin wax, lanolin alcohols, lanolin fatty acids, isopropyl lanolate, acetylated lanolin, acetylated lanolin alcohols, lanolin alcohol linoleate, lanolin alcohol riconoleate, castor oil, soy bean oil, sunflower seed oil, maleated soy bean oil, safflower oil, cotton seed oil, corn oil, walnut oil, peanut oil, olive oil, cod liver oil, almond oil, avocado oil, palm oil, sesame oil, and combinations thereof.

12. - 15. (Cancelled)

16. (Previously Presented) A personal cleansing article according to claim 1, wherein said personal cleansing composition further comprises a structurant.

17. (Previously Presented) A personal cleansing article according to claim 16, wherein the structurant is selected from the group consisting of trihydroxystearin, silicas, clays, and polymers.

Appl. No. 10/699,469
Docket No. 9081M
Amdt. dated October 20, 2008

Customer No. 27752

18. (Previously Presented) A personal cleansing article according to claim 1, wherein said personal cleansing composition further comprises a cationic deposition polymer.

19. (Currently Amended) A personal cleansing article according to claim 1, wherein the ~~cleansing and benefit phases~~first stripe and the at least one additional stripe form a pattern within the package.

20. (Previously Presented) A personal cleansing article composition according to claim 1, wherein said package is transparent.

21. - 54. (Cancelled)
